professional and loving care for your pets in their own home environment

The owners of Pet Watchers Plus know that dogs and cats are more than pets. They are family members. Pets share our home and truly are our children. That is why choosing the right pet sitter for them is very important. We know that your dogs need exercise and proper nutrition to stay happy and healthy. We also know that you may not be able to be with your pet all day or need to go on vacation or business travel. PWP is committed to help ensure your pets get the attention and care they need while you are gone.

Why Should You Use a Professional Pet Sitter?

If you are faced with the dilemma of what to do with their pets when traveling away from home, consider PWP. If you are like most pet owners, you either board your pet or arrange for friends and neighbors to take care of your pet while you're away. However, transporting your pet to a kennel can be inconvenient, and friends may not provide the level of care your pet requires. In addition, it is often uncomfortable and awkward to impose on friends and family. It is also commonly known that pets do better in their own environment.
